## **ANTI-THEFT & VANDALISM SYSTEM**

## Wiltshire traffic vigilante fools drivers with dummy

21 December 2023

Sarah Jones & Louis Inglis  
BBC News

<https://www.bbc.com/news/uk-england-wiltshire-67486196>

PSYCHOLOGICAL STUDIES PROVE THAT PEOPLE CAN BE INHIBITED FROM COMMITTING ILLEGAL ACTS IN AN ENVIRONMENT WHERE THEY ARE ALONE, BUT IN THE PRESENCE OF IMAGES OF SERIOUS FACES. (SEE REPORT ON TRAFFIC GUARD DOLL).

### POSTER FOR FREE CONTRACEPTIVES.

THE SERIOUS FACE AND THE MESSAGE SUGGESTING THAT THE PERSON TAKE ONLY 2 PACKAGES IS AIMED AT CONTROLLING PEOPLE FROM TAKING MORE THAN THEY NEED, ALSO AVOIDING DEVICE VANDALISM.

**GET FREE**

**HELLO, WOMEN AND GIRLS. YOU CAN TAKE UP 2 FREE PACKS, OK?**

Instructions for using the dispenser are displayed on the digital screen, with audio options in any language.

The user can also use the digital screen to answer the self-screening questionnaire to find out if they are eligible to use any of the available contraceptives. The test result is displayed in real time.

2

A custom blood pressure sensor allows the user to check whether their blood pressure qualifies them for certain types of contraceptives or not, eliminating the risk of side effects. The result appears on the digital screen in real time.

3

The keyboard can be used for purchases without an access card, using individual passwords provided by the organizations or pharmacies that manage the machines.

PHYSICAL RSC CARD

4

The card machine is used for access by users who have an access card. The cards are provided by the organizations or pharmacies that manage the machines and are individual and non-transferable, as they have a secret password and cannot be used by other people.

### DIGITAL COMMUNICATION ONLINE AND OFFLINE

The dispenser is equipped with a mini Wi-Fi router. Its function is to make the Wi-Fi signal more stable in the area near the machine, allowing users to access the system online, interacting with the dispenser through their smartphone.

At the same time, the dispenser also has a BRIAR system, which enables offline communication. To do this, the user must also have the BRIAR app installed on their Android smartphone. These two functions allow users to access the device even when there is no Wi-Fi available.

#### ONLINE MODE

ASR 4G PLATFORM  
MOBILE HOTSPOT 4G  
ESIM ROUTER WIFI

#### OFFLINE MODE

BRIAR IS AN OPEN-SOURCE, AD-FREE MESSAGING SERVICE THAT YOU CAN USE TO SEND MESSAGES, IMAGES, AND VIDEOS WITHOUT INTERNET, ONLY TO ANDROID DEVICES.

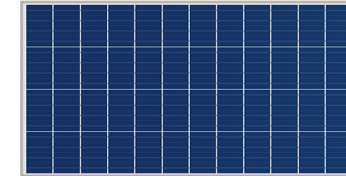

### PUBLIC ACCESSIBLE TOILET FOR PEOPLE WITH SPECIAL NEEDS ADAPTED WITH SIMPLI CHEK DEVICE

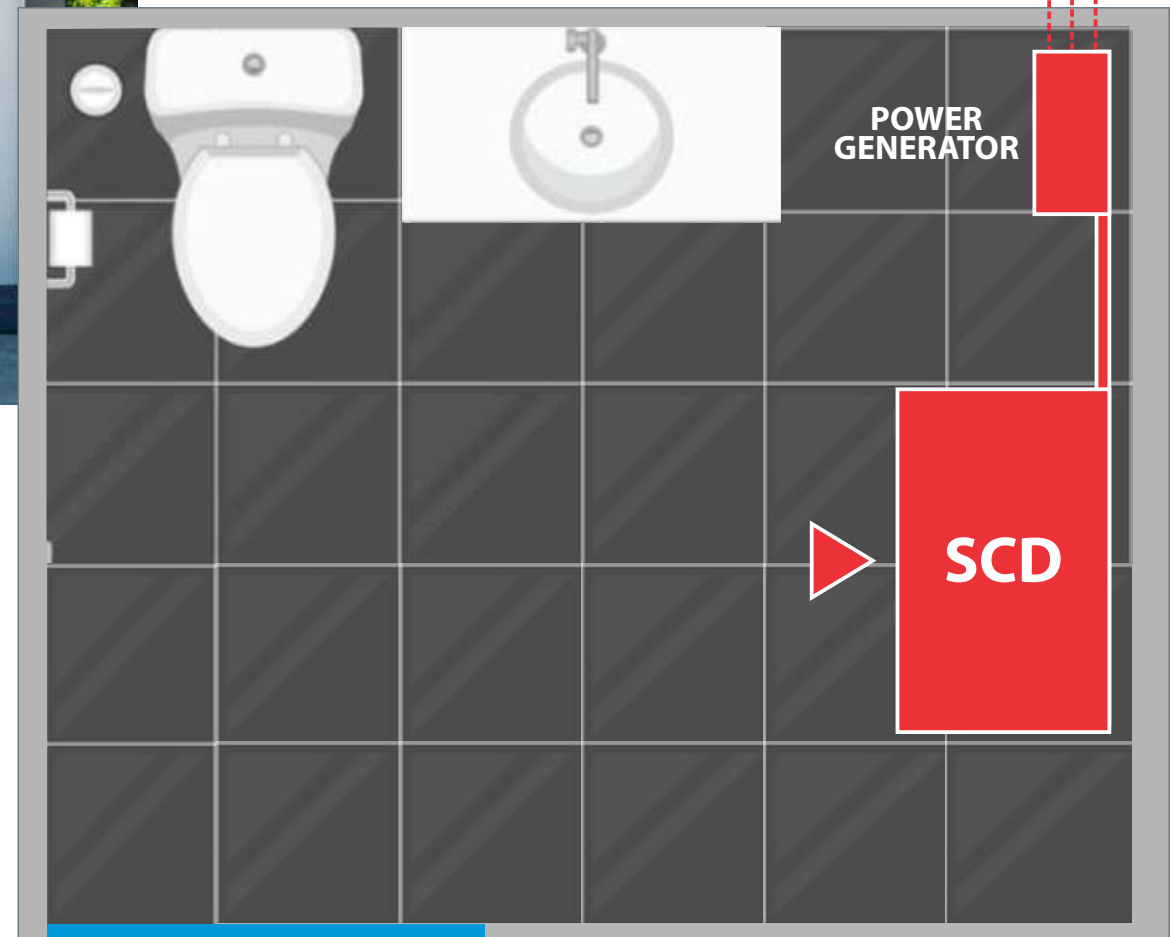

CITY ELECTRICITY NETWORK

SOLAR PANEL

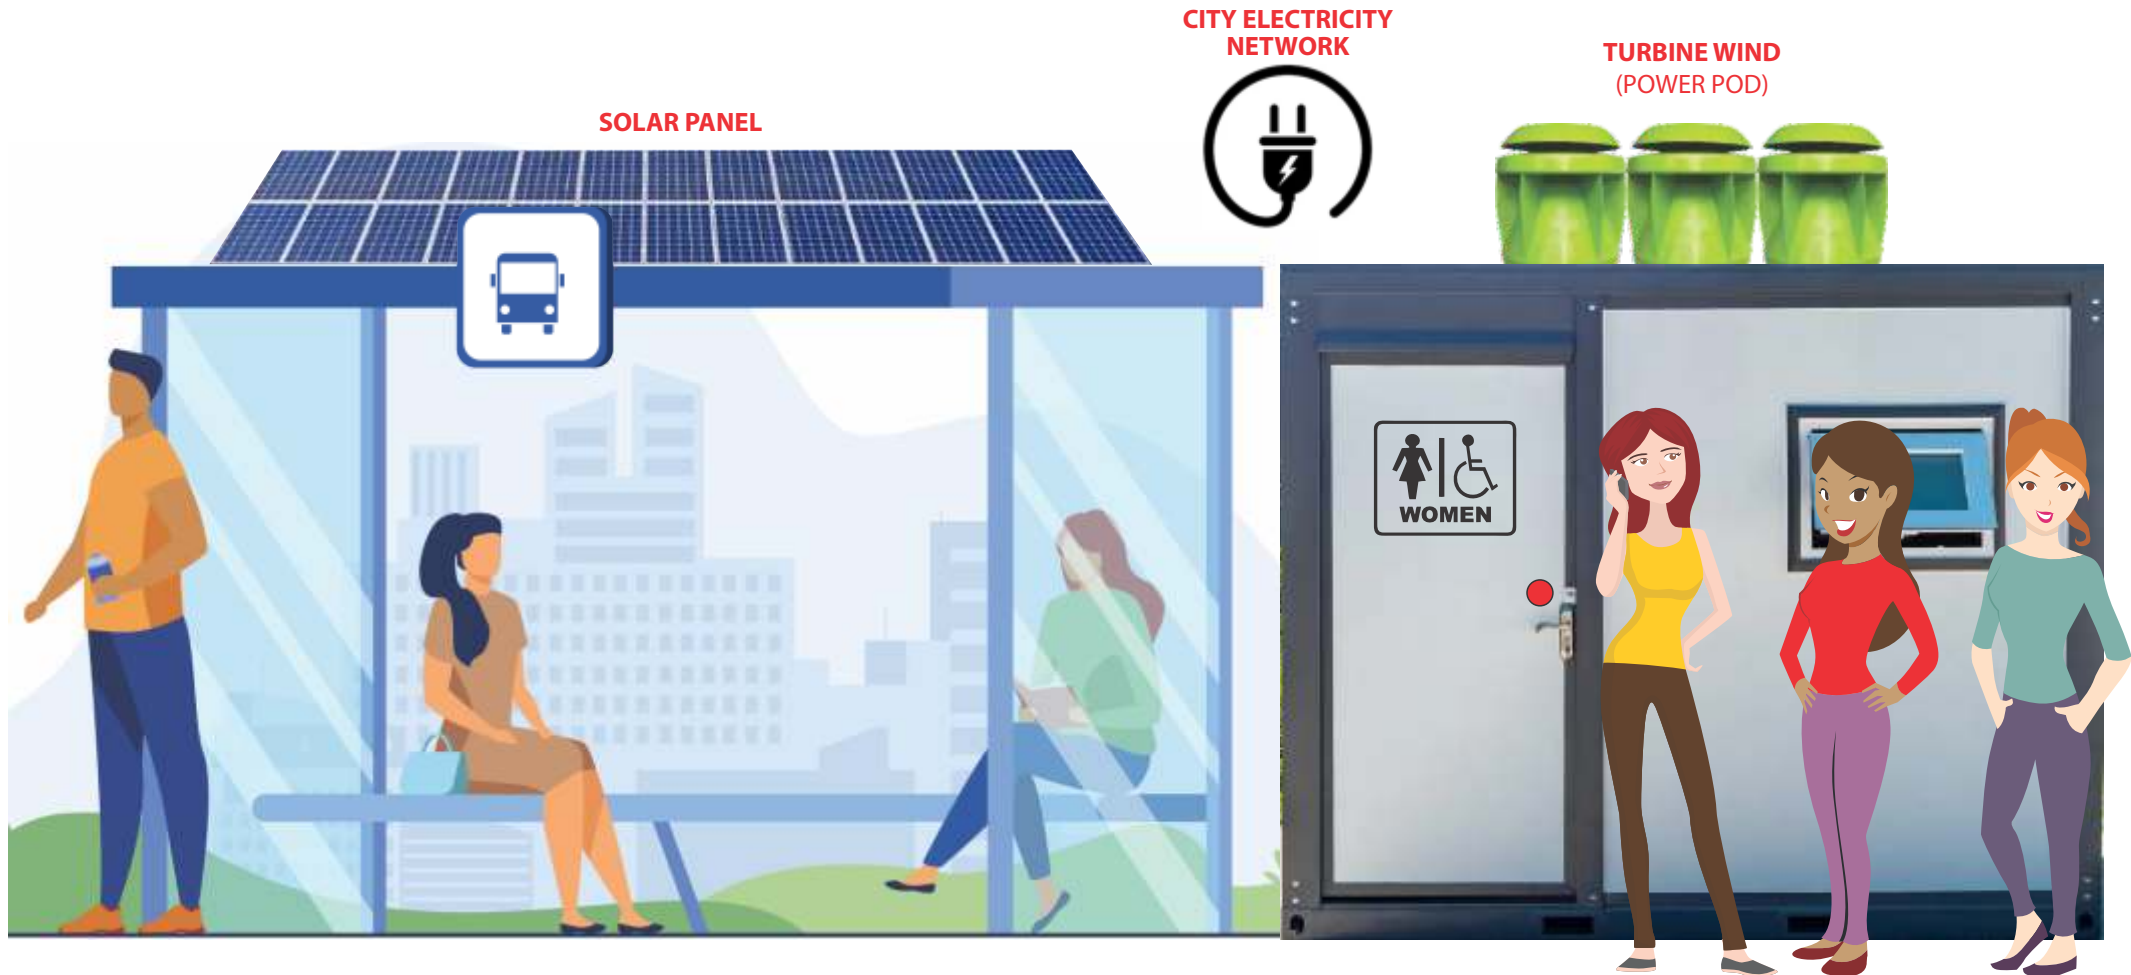

WIND TURBINE

The ideal place to install SCD is in public restrooms for people with special needs, because there is more space. Inside, the bathroom will be adapted as a bathroom for people without special needs, with a toilet and sink, as well as the SCD and a generator that stores energy from the public grid or from wind and solar devices installed outside. This way, users will have total privacy and the likelihood of theft is lower.

**ENERGY SOURCES**

The proposal to install women's restrooms near bus stops allows a solar panel to be installed on the bus stop. In addition, 2 or 3 Power Pod units can be installed on the restroom structure, a wind turbine with 4 times more power generation capacity than a propeller of the same size. Both systems will supply the SCD with renewable energy, in addition to recharging the backup generator, which will be activated automatically whenever the power systems fail.

# **BLOOD PRESSURE MEASUREMENT**

# BLOOD PRESSURE MEASUREMENT SOFTWARE AND DEVICE ADAPTED TO SIMPLI CHEK

## OPTION 1

### PARTNERSHIP BETWEEN SIMPLI CHEK, DIGIHEALTH LAB, UC SAN DIEGO AND IRC.

The digital blood pressure monitor is based on a device developed by the DIGITAL HEALTH LAB, IRC at UC SAN DIEGO. To use, simply press your thumb on the base of the sensor for a few seconds, and the user's blood pressure will be recorded on the digital screen.

**BLOOD PRESSURE GAUGE  
(SENSOR)**

**OPTION 2****COLLABORATION BETWEEN THE IRC AND VOLUNTEER PARTNERS ON REFUGEE ROUTES**

Volunteer partners are people willing to help the IRC assist refugees on their journey. The digital blood pressure monitor costs around US\$30.00. The idea is that, in addition to the pharmacies, the partners will receive a digital monitor from the IRC and measure the blood pressure of refugees seeking help. This way, the devices are protected, without the risk of theft or damage.

**PARTNERS**

**VOLUNTEER HOUSE**  
(IRC PARTNER)

**PHARMACY**

**IRC PARTNERS are volunteers who are willing to help the IRC and refugees.**

They can be responsible for replenishing the stock of contraceptive distribution points, picking up products from pharmacies and taking them to the points.

They also have a digital blood pressure monitor provided by the IRC, and they assist refugees who need to have their blood pressure measured. The app contains the location of all available partners in each region.

## OPTION 3

### PARTNER WITH COMMERCIALLY AVAILABLE BLOOD PRESSURE MEASURING APPS.

Although smartphone software for blood pressure measurement is still not 100% effective, there is a relative rate of reliability in recently released programs, which may mean that in a short time we will have software that is very close to 100% accurate in blood pressure measurements. Until then, these programs can be used with the help of a health professional to help each user calibrate their pressure measured by a medical device and the result measured by the software, to avoid major errors.

#### Abstract

**Background:**  
The use of digital interventions by patients for remote monitoring and management of health and disease is increasing. This observational study examined the feasibility, use, and safety of a digital smartphone app for routine monitoring of blood pressure (BP), medication, and symptoms of COVID-19 during the COVID-19 pandemic.

**Objective:**  
The objective of this study was to deploy and test electronic data recording using a smartphone app developed for routine monitoring of BP in patients with primary hypertension. We tested the app for ease of data entry in BP management and tracking symptoms of new-onset COVID-19 to determine if participants found this app approach useful and sustainable.

**Methods:**  
This remote, decentralized, 12-week, prospective, observational study was conducted in a community setting within the United States. Participants were approached and recruited from affiliated sites where they were enrolled in an ongoing remote decentralized study (CURE-19) of

# A smartphone application toward detection of systolic hypertension in underserved populations

[Cederick Landry](#), [Vishaal Dhamotharan](#), [Mark Freithaler](#), [Alisse Hauspurg](#), [Matthew F. Muldoon](#), [Sanjeev G. Shroff](#), [Anand Chandrasekhar](#) & [Ramakrishna Mukkamala](#) [Scientific Reports](#) **14**, Article number: 15410 (2024) | [Cite this article](#)**4691** Accesses | **81** Altmetric | [Metrics](#)

## Abstract

High systolic blood pressure (BP) is the most important modifiable risk factor for cardiovascular disease. Managing systolic hypertension is especially difficult in underserved populations wherein access to cuff BP devices is limited. We showed that ubiquitous smartphones without force sensing can be converted into absolute pulse pressure (PP) monitors. The concept is for the user to perform guided thumb and hand maneuvers with the phone to induce cuff-like actuation and allow built-in sensors to make cuff-like measurements for computing PP. We developed an Android smartphone PP application. The 'app' could be

	Are you currently using any method of birth control including pills, or a birth control patch, ring or shot/injection?	Yes <input type="checkbox"/> No <input type="checkbox"/>
	- If yes, which one do you use?	_____
4	Have you ever been told by a medical professional not to take hormones?	Yes <input type="checkbox"/> No <input type="checkbox"/>
5	Do you smoke cigarettes?	Yes <input type="checkbox"/> No <input type="checkbox"/>

## Medical History:

6	Have you given birth within the past 6 weeks?	Yes <input type="checkbox"/> No <input type="checkbox"/>
7	Are you currently breastfeeding?	Yes <input type="checkbox"/> No <input type="checkbox"/>
8	Do you have diabetes?	Yes <input type="checkbox"/> No <input type="checkbox"/>
9	Do you get migraine headaches? If so, have you ever had these kinds of headaches that start with warning signs or symptoms, such as flashes of light, blind spots, or tingling in your hand or face that comes and goes completely away before the headache starts?	Yes <input type="checkbox"/> No <input type="checkbox"/>
10	Do you have high blood pressure, hypertension, or high cholesterol?	Yes <input type="checkbox"/> No <input type="checkbox"/>
11	Have you ever had a heart attack or stroke, or been told you had any heart disease?	Yes <input type="checkbox"/> No <input type="checkbox"/>
12	Have you ever had a blood clot?	Yes <input type="checkbox"/> No <input type="checkbox"/>
13	Have you ever been told by a medical professional that you are at risk of developing a blood clot?	Yes <input type="checkbox"/> No <input type="checkbox"/>
14	Have you had recent major surgery or are you planning to have surgery in the next 4 weeks?	Yes <input type="checkbox"/> No <input type="checkbox"/>
15	Have you had bariatric surgery or stomach reduction surgery?	Yes <input type="checkbox"/> No <input type="checkbox"/>
16	Do you have or have you ever had breast cancer?	Yes <input type="checkbox"/> No <input type="checkbox"/>
17	Do you have or have you ever had hepatitis, liver disease, liver cancer, or gall bladder disease, or do you have jaundice (yellow skin or eyes)?	Yes <input type="checkbox"/> No <input type="checkbox"/>
18	Do you have lupus, rheumatoid arthritis, or any blood disorders?	Yes <input type="checkbox"/> No <input type="checkbox"/>
19	Do you take medication for seizures, tuberculosis (TB), fungal infections, or human immunodeficiency virus (HIV)?	Yes <input type="checkbox"/> No <input type="checkbox"/>
	- If yes, list them here:	_____
20	Do you have any other medical problems or take any medications, including herbs or supplements?	Yes <input type="checkbox"/> No <input type="checkbox"/>
	- If yes, list them here:	_____

Do you have a preferred method of birth control that you would like to use?

☐ A pill you take each day ☐ A patch that you change weekly ☐ Other (ring, injectable, implant, or IUD)

Internal use only ☐ verified DOB\* with valid photo ID ☐ BP Reading \_\_\_\_\_/\_\_\_\_\_

## SELF-SCREENING

THE USER MUST FILL OUT THE FORM IN THE APP TO RECEIVE THE IDEAL CONTRACEPTIVE FOR THEIR HEALTH SITUATION/AGE/LIMITATIONS. ALTERNATIVE: ADAPT A TABLET TO THE DIGITAL DEVICE SIMPLI CHEK FOR THE USER TO ANSWER THE QUESTIONNAIRE.

The self-screening questionnaire is based on the material used by the US government (<https://www.uslegalforms.com>), in a more simplified manner. It can be filled out on the digital screen when the user first accesses the machine, especially when there is no Wi-Fi available. If Wi-Fi is available at the location, the user can download the self-screening questionnaire and fill it out on their own smartphone, receiving the results in real time.

## Summary Chart of U.S. Medical Eligibility Criteria for Contraceptive Use

Pages 1,2	Color coded in the left column to match the corresponding questions of the Oregon Self-Screening Risk Assessment Questionnaire.	1. No contraindications identified (can be used).	Green
Pages 3,4	Arranged alphabetically by disease state	2. Advantages generally outweigh disadvantages or proven risks.	Yellow
		3. Theoretical or proven risks outweigh advantages.	Orange
		4. Contraindications outweigh advantages (should not be used).	Red

Updated June 2015. This summary chart only contains a subset of the recommendations from the US MEC. For complete guidance, see: [https://www.oregon.gov/pharmacy/Pages/ContraceptivePrescribing.aspx#Tool-Kit\\_Resources](https://www.oregon.gov/pharmacy/Pages/ContraceptivePrescribing.aspx#Tool-Kit_Resources)

## Corresponding to the order of the Oregon Self-Screening Contraception Risk Assessment Questionnaire:

Condition	Sub-condition	Combined pill, patch	Progestin-only pill	Other (injection, implant, IUD, etc.)

### POINTS & ROUTES

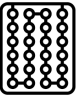

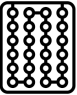

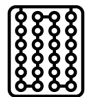

ON THEIR JOURNEY TO ESCAPE THE CONFLICT, REFUGEES WILL HAVE HELP FROM THE APP, WHICH WILL SHOW THEM THE ROUTES IN THEIR REGION AND THE POINTS WHERE THEY CAN FIND DEVICES FOR SALE OR DONATION OF CONTRACEPTIVES, FOOD CENTERS, MEDIUM CLINICS, CAMPS, HOSTELS, ETC.

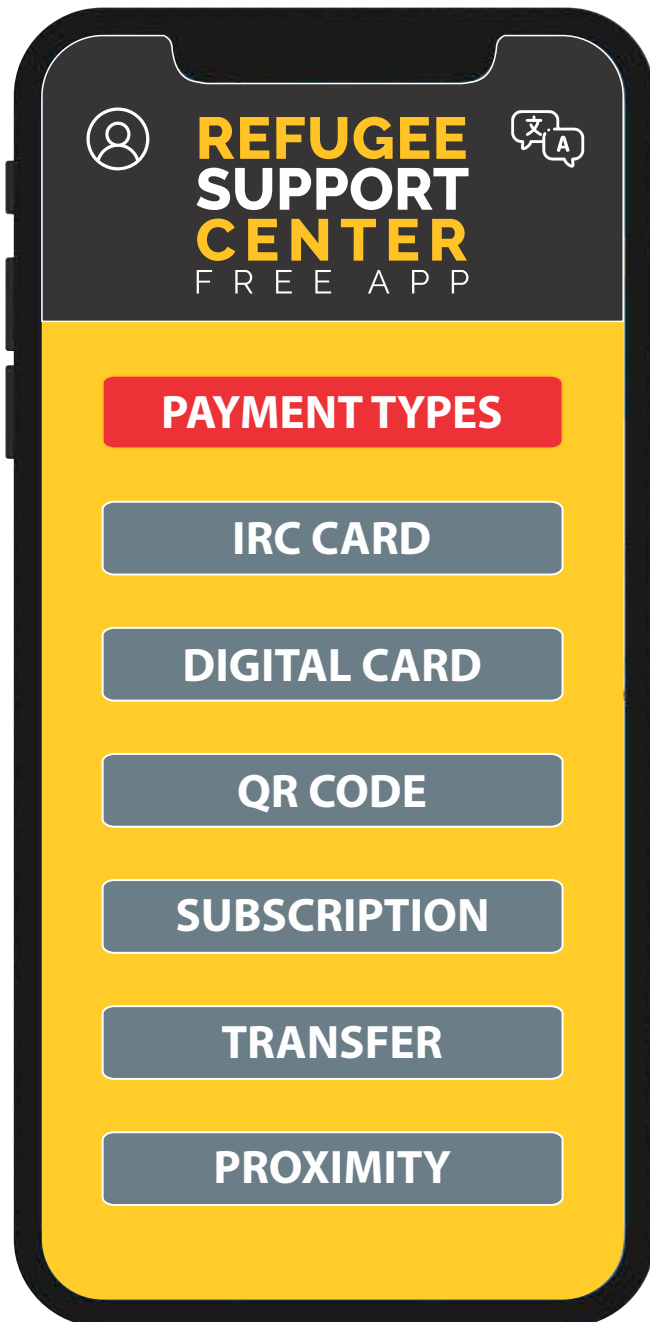

### PRODUCTS

BY HAVING A REPORT OF ALL THE CONTRACEPTIVES THAT YOU MAY FIND ON YOUR ROUTE, USERS WILL BE ABLE TO PLAN IN ADVANCE TO REPLENISH THEIR STOCK OF PROTECTION METHODS.

POINT	FOR SALE	FREE
<b>1 IRC SUPPORT</b>	     	   
<b>2 IRC SUPPORT</b>	   	   
<b>3 IRC SUPPORT</b>	    	  
<b>4 IRC SUPPORT</b>	   	   

### PAYMENT TYPES

#### HOW CAN THE USER **PAY** FOR THE PRODUCTS?

IT IS IMPORTANT TO NOTE THAT ALL PAYMENT ALTERNATIVES PRESENTED DEPEND ON AN ADAPTATION OF THE SIMPLI CHEK CONTRACEPTIVE SALES DEVICE. THE IDEA IS TO MAKE IT EASY FOR THE USER TO HAVE SEVERAL WAYS TO PAY FOR PRODUCTS DURING THEIR JOURNEY.

**IRC CARD** - IRC WILL DISTRIBUTE PHYSICAL CARDS SO THAT USERS CAN LOAD THEM WITH CREDITS TO BUY CONTRACEPTIVES ON PAID DEVICES.

**DIGITAL CARD** - THE APP ALLOWS THE USER TO CREATE A DIGITAL CARD TO USE AS AN ALTERNATIVE. THIS CARD ALLOWS YOU TO ACCUMULATE **CREDITS\*** \*(SEE ABOUT CREDITS BELOW).

**QR CODE** - PRODUCTS CAN ALSO BE PAID FOR BY READING QR CODES SHOWN ON THE DISPLAY OF PAID CONTRACEPTIVE DEVICES.

**SUBSCRIPTION** - THE USER CAN MAKE A SUBSCRIPTION TO CONTRACEPTIVES ON A BI-ANNUAL OR ANNUAL BASIS, SIMPLY CAPTURING THE SUBSCRIPTION QR CODE TO GET THE PRODUCT.

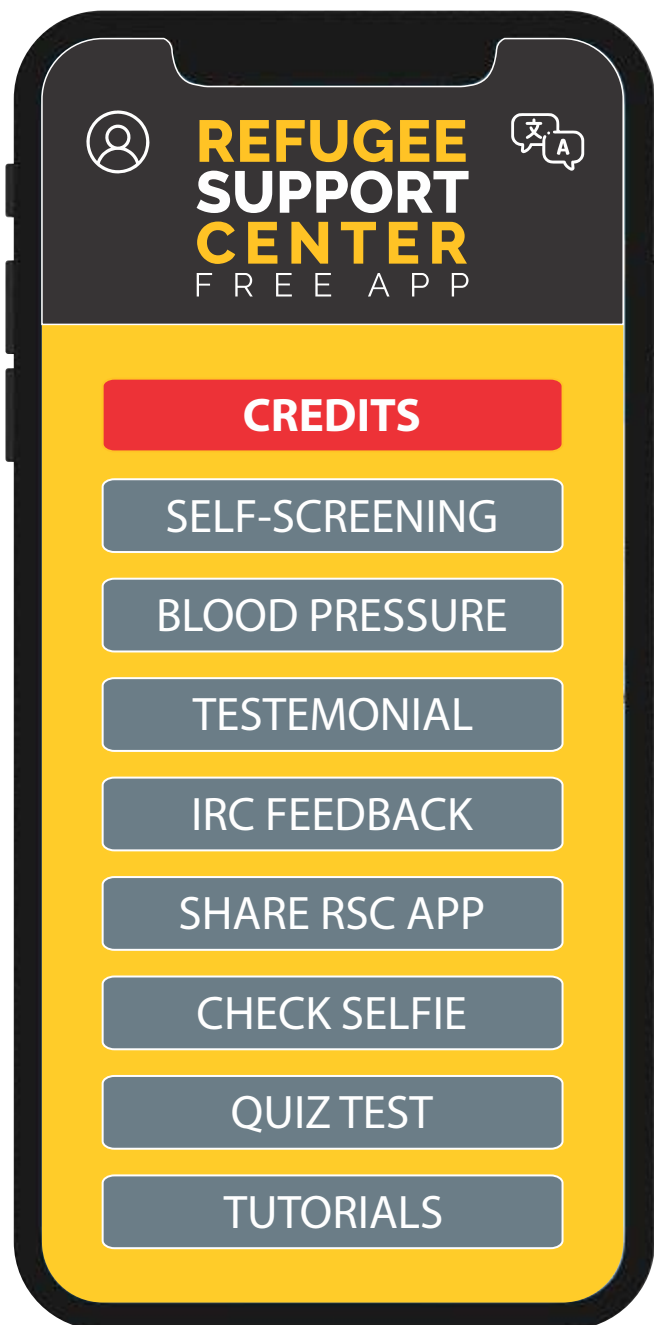

**TRANSFER** - PRODUCTS MAY BE PAID FOR BY CURRENCY TRANSFER IN CASES WHERE THE PAID DEVICE IS ONLINE.

**PROXIMITY** - THE SYSTEM OF CONNECTING THE CELL PHONE TO THE PAID CONTRACEPTIVE DEVICE IS ANOTHER PRACTICAL FORM OF PAYMENT.

## DIGITAL CARD

## CREDITS

HOW CAN THE USER EARN **CREDITS** TO EXCHANGE FOR PRODUCTS?

IN THE "DIGITAL CARD" FUNCTION THERE IS A "CREDITS" OPTION, WHICH ALLOWS THE USER TO EARN VIRTUAL CREDITS BY INTERACTING WITH THE APP AND WITH THE IRC, HELPING THE SUPPORT CHAIN WHILE GETTING BENEFITS AND LEARNING HOW TO PLAN YOUR SEXUAL LIFE AND PROTECT YOURSELF. THE USER WILL EARN CREDITS WHEN:

**SELF-SCREENING** - DO YOUR SELF-SCREENING THROUGH THE RSC APP. CREDITS CAN BE USED TO BUY CONTRACEPTIVES AND HYGIENE PRODUCTS.:

**BLOOD PRESSURE** - WHENEVER YOU MEASURE YOUR BLOOD PRESSURE WITH A PROFESSIONAL IN A PHARMACY

**TESTEMONIAL** - WHEN YOU UPLOAD VIDEOS OF UP TO 60 SECONDS TO THE 'TUTORIALS' SECTION TELLING ABOUT YOUR EXPERIENCES WITH IRC AND THE RSC APP.

**IRC FEEDBACK** - WHEN REQUESTED BY IRC, THE USER MAY EARN CREDITS BY FORWARDING INFORMATION ABOUT THE CURRENT STOCK OF DISPENSERS, THEFTS OR VANDALISM.

**SHARE RSC APP** - WHENEVER YOU SHARE THE RSC APP WITH A NEW USER, YOU ARE HELPING TO PROMOTE THIS IMPORTANT SUPPORT TOOL FOR REFUGEES.

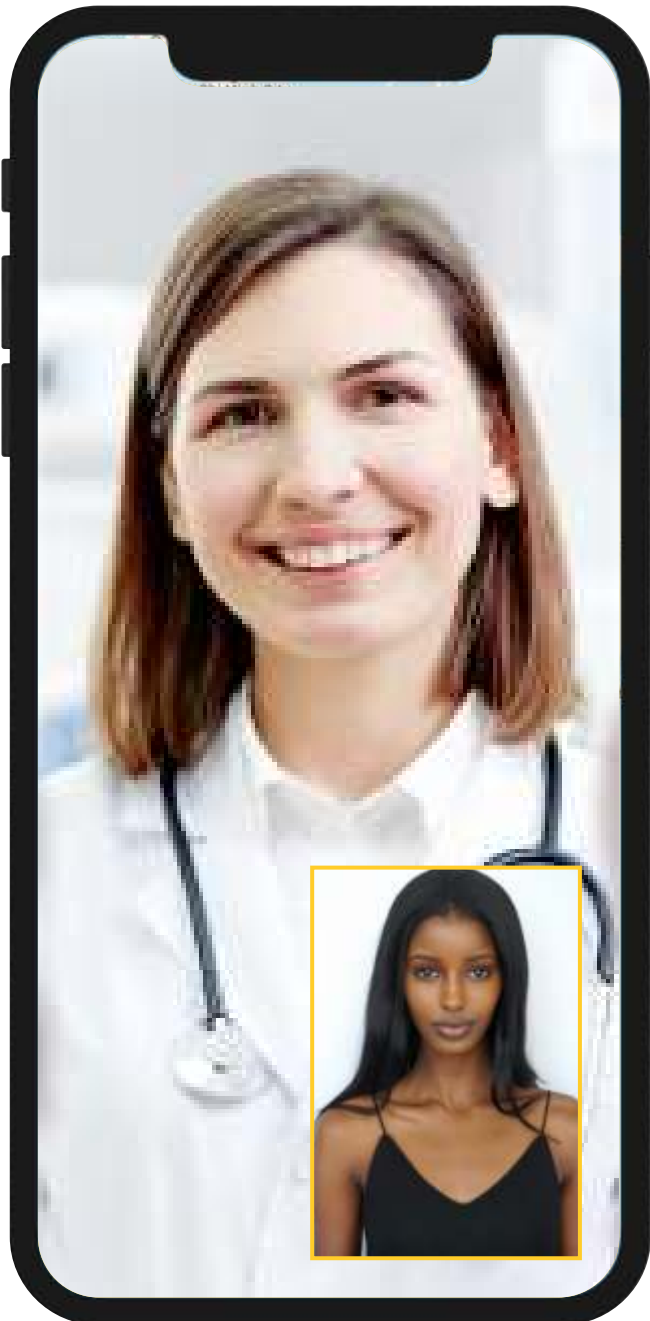

**CHECK SELFIE** - WHEN THE IRC REQUESTS IT, THE USER CAN CHECK THE STATUS OF THE DISPENSER BY TAKING A SELFIE WITH THE DEVICE AND SENDING IT TO THE IRC CENTER.

**QUIZ TEST** - WHENEVER ANSWERING QUESTIONS ON TOPICS RELATED TO CONTRACEPTIVE METHODS, NON-COMMUNICABLE DISEASES AND POPULAR MYTHS.

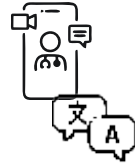

**TUTORIALS** - WHEN TO ACCESS THE TUTORIALS AVAILABLE IN THE RSC APP FOR STUDY AND GREATER UNDERSTANDING OF THE BENEFITS AND RISKS OF USING CONTRACEPTIVES.

### CONSULTATION

#### ONLINE CONSULTATIONS FOR REFUGEES AROUND THE WORLD

THE APP ALLOWS VIDEO CALLS WITH SIMULTANEOUS TRANSLATION SOFTWARE, ALLOWING VOLUNTEERS TO HELP REFUGEES OF ANY ETHNICITY AROUND THE WORLD.

**STUDENT VOLUNTEERS** - Student volunteers from various health areas from around the world assist refugees in online consultations

**GYNECOLOGIST** - Guidance on eligibility, contraceptive methods, prevention of sexually transmitted diseases.

**GENERAL PRACTITIONER** - Teaches how to identify and control chronic diseases such as Hypertension, diabetes, obesity; allergies such as rhinitis and sinusitis; flu, cold, dengue and Zika infections.

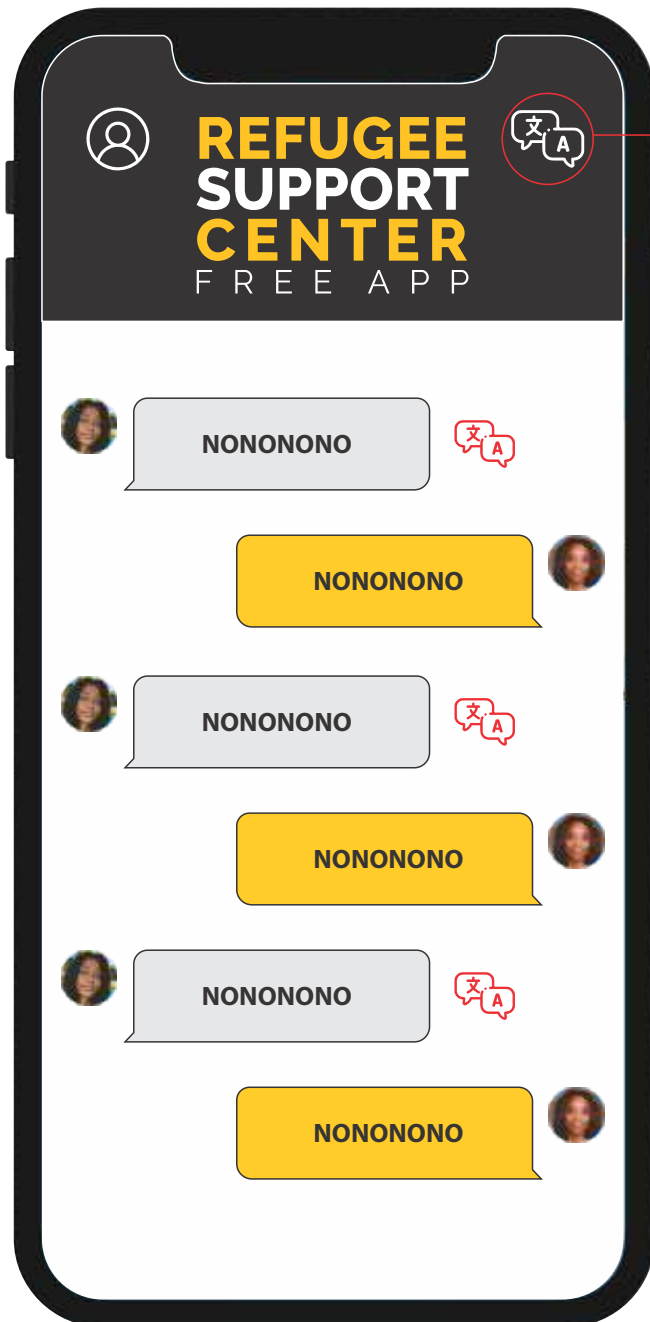

**PSYCHOLOGIST** - Helps refugees overcome the traumas and challenges of a sudden life change.

**NUTRITIONIST** - Indicates the most balanced diet possible for each person, considering their health history and general conditions.

**IN THIS EXAMPLE,** Herta, a German medical student, talks to Naomi, a refugee from the Democratic Republic of Congo, using simultaneous translation.

### CHAT + CHATBOT

#### HOW CAN REFUGEES **COMMUNICATE, GET INFORMATION AND GET HUMAN SUPPORT THROUGH THE APP?**

THIS FUNCTION ALLOWS REFUGEES TO COMMUNICATE WITH OTHER GROUPS, WITH THEIR FAMILY AND WITH VOLUNTEER ATTENDANTS WHO HELP WITH INFORMATION ABOUT IRC SERVICES, ROUTES, SITUATION IN THE COUNTRY OF DESTINATION, ETC. A CHATBOT CAN ALSO BE ACCESSED FOR MORE FREQUENTLY ASKED QUESTIONS. ALLOWS CREATION OF REFUGEE GROUPS

**CHAT** - Available 24 hours a day, with simultaneous written and spoken translation, allowing refugees of various ethnicities to communicate and exchange experiences, helping each other.

**CHATBOT** - Uses advanced AI and can be accessed by users at any time to answer questions about the logistics of contraceptive points, the location of other groups, police stations, health centers, hospitals, camps, hostels and food distribution points along the routes.

**HELPDESK** - Volunteer attendants from various parts of the world take turns to help refugees with questions that cannot be answered by the chatbot in any language.

#### SELECT SIMULTANEOUS LANGUAGE GENERATED BY AI:

- |            |             |             |             |
|------------|-------------|-------------|-------------|
| - ENGLISH  | - SPANISH   | - MYANMAR   | - ETHIOPIAN |
| - AFGHAN   | - CONGOLESE | - SOMALI    | - TIBETAN   |
| - SUDANISH | - YEMENSE   | - UKRAINIAN | - OTHERS    |

**ALERTS!****IMPORTANT ALERTS SYSTEM FOR APP USERS**

THE AI-BASED ALERT SYSTEM ADVISES THE USER WHEN IT IS TIME TO TAKE THEIR CONTRACEPTIVE, WHEN THEY SHOULD MEASURE THEIR BLOOD PRESSURE AGAIN, THE EXPIRATION DATE OF THE CONTRACEPTIVES, WHEN THEY SHOULD BUY NEW STOCK, THE LIKELY DAY OF THE NEXT MENSTRUATION AND OTHER IMPORTANT PERSONALIZED INFORMATION.

**TUTORIALS****VIDEOS, AUDIOS AND TEXTS WITH RELEVANT INFORMATION FOR REFUGEES**

LIBRARY WITH INFORMATION FILES ON HOW TO PREVENT SEXUALLY TRANSMITTED DISEASES, HOW TO DO SELF-SCREENING, HOW TO ACCESS OTHER APP FUNCTIONS. USERS ARE ENCOURAGED TO POST SHORT VIDEOS WITH TESTIMONIALS SHARING THEIR EXPERIENCES.

**NEWS****RELEVANT NEWS FOR REFUGEES ON THEIR ROUTES**

DURING THEIR JOURNEY, REFUGEES GET LOST AND NEED TO UPDATE INFORMATION ABOUT THE COUNTRY THEY ARE GOING TO, POSSIBLE DANGERS ON THE ROUTE THEY FOLLOW, LOCATION OF IRC SUPPORT GROUPS AND PARTNERS, ETC.
